## **Volatile Free, Inc. introduces the new and improved VFI-714, a closed cell, two pound, wall foam.**

Brookfield, WI (**October, 2015**) – The leadership of Volatile Free, Inc. (VFI®) has launched the new and improved VFI-714, a nominal, closed cell, two pound, spray polyurethane, wall foam. It features a 6.6 R-Value that results in fast acting expanding properties that fill all voids, cracks, gaps and crevices. VFI-714 will provide maximum energy efficiency with a superior thermal envelope for your home or commercial property.

VFI-714 also provides a strong air barrier and will minimize moisture infiltration. Volatile Free, Inc. went to IAPMO to have the product officially evaluated; reference UES ER-415. VFI-714 now meets ICC-ES AC377 and Appendix X standards.

“We are excited to feature a superior, insulating spray foam that allows us to participate in the spray polyurethane foam industry,” says VFI® President, Nancy Hochmuth

This has been an amazing year for Volatile Free, Inc. with the additions of a new website, VFI-727 Roofing Spray Foam, *SEALGUARD* VFI-991 SILICONE, along with energy star certifications for VFI-600 Acrylic Coatings and high solid *SEALGUARD* VFI-990 SILICONE.

Volatile Free, Inc. is celebrating 20 years as a manufacturer of high performance polymers. Since 1995, VFI has successfully manufactured silicone, spray foam and polyurea hybrid products and related services. Utilizing advanced techniques in chemistry, technology and steady company growth, demonstrates Volatile Free Inc.’s commitment to provide quality products and services. VFI’s success is due to the strong relationships they have built while maintaining and improving their products.
