Volatile Free, Inc. announces the new VFI[®]- Deck Coating System.

Brookfield, WI (**February, 2017**) – The leadership at Volatile Free, Inc. (VFI) has launched the new VFI-Deck Coating System. It features a five layer system designed to protect various types of concrete structures. VFI-Deck Coating System provides superior waterproofing protection while maintaining maximum slip resistance to the substrate.

The types of concrete structures include; balconies, patios, ramps, elevated walkways and previously coated deck systems.

“We are excited to manufacture a superior deck coating and to be able to offer even more variety in our product line to our customers,” says VFI[®] President, Nancy Hochmuth

Volatile Free, Inc. has been in business for over 20 years, manufacturing high performance polymers. Since 1995, VFI has successfully manufactured polyurethane spray foam, silicone, acrylic, urethane and polyurea hybrid coatings and related products. Utilizing advanced techniques in chemistry and technology along with steady company growth, demonstrates Volatile Free Inc.’s commitment to provide quality products and services. VFI’s success is due to the strong relationships they have built while maintaining and improving their products.
