Volatile Free, Inc.® launches new and improved web site to promote products to the commercial and industrial roof coating industry, as well as OEM markets.

Brookfield, WI (**February 9th, 2015**) – The leadership of Volatile Free, Inc. has launched a new and improved web site, that not only features a new design but seamless navigation. This includes, better developed product categorization and visualization. Now you can find all literature, product data sheets, product certificates and videos in one place. Volatile Free's goal was to make it easier for their existing customers to navigate the site, while driving new customer business.

VFI®'s new web site features new products and product certifications. For example, SEALGUARD 990 SILICONE and VFI-600 Acrylic Coating, are now Energy Star Certified. They have also added a new spray foam product, VFI-727, which is UL certified. Their signature VFI-540 polyurea hybrid coating, Badgerliners® and Qwik Spray System® are represented with more visuals and detailed product information.

Volatile Free, Inc. is celebrating 20 years as a manufacturer of high performance polymers. "We are so excited to have a fully functional web site that will give us more opportunity in our industry," says VFI President, Nancy Hochmuth. Since 1995, Volatile Free, Inc. has successfully manufactured polyurea and polyurea hybrid products, and has remained strong in the industrial and commercial roof coating industry, while branching into more OEM markets. VFI's success is due to the strong relationships they have built while maintaining and improving their products.

To learn more about VFI's new and certified products visit at www.volatilefree.com. To place an order call (800)-307-9218. Visit Volatile Free, Inc. at the International Roofing Expo, February 24th to 26th in New Orleans, Booth #963
