VFI[®]-630 Flashing Grade Acrylic Coating

VFI-630 Flashing Grade Acrylic Coating is a high-build, single component acrylic sealant designed to seal cracks, holes, and through-wall penetrations in masonry walls prior to applying VFI-690 Waterproofing Primer. Used in combination with VFI Polyester Reinforcing fabric, it can also repair seams, flashings, penetrations, and all other types of damage to existing metal and low-slope roofing systems either as a stand-alone repair or prior to application of the VFI-600 Series Acrylic Restoration Coating System.
