

## **VFI-6185** **MACHINABLE HARD COAT**

This new addition to the brushable hard coat line is an excellent material for repairing existing hard coats or creating advanced shapes and details on surfaces intended for theming projects.

Enhanced  
Sandability

Machinable  
Next Day

Multi-Surface  
Adhesion

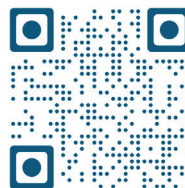

Extended  
Working Time

### **HOW TO USE:**

Measure 1A:5B by volume or 17.98A:100B by weight and mix thoroughly before applying at a minimum of 3/8-1/2 an inch thick with a trowel, brush, or putty knife. No spray equipment necessary.
